About us

Tech Colony is a company that sells computers, accessories, parts, and customized computers for awesome computer fans.

Remember, feel free to follow us on Instagram and Twitter, or like us on Facebook to stay updated on our store.

We mainly post updates and news about our store on social media; you won't have to miss it whether you look forward to new parts such as new processors, graphic cards, or more.

Even better, we post what will be on sale and deals or bundles for game consoles.

Are you a gamer? We got you! We sell gaming PCs with built-in GIGABYTE GEFORCE graphics cards with the best quality you can ever have on your screen. Of course, we don't forget the newest processor.

We also customize computers for gaming, business, and personal.

We add different parts to computers depending on our customer's demand. We can add the newest graphics card, add LED light, considerable amounts of fans, lowest or highest storage, and motherboards.

Do you prefer game consoles? No problem!

We also sell game consoles such as Playstation 5, Xbox Series X, Nintendo Switch, and more. We may sell retro systems soon. What's also good about our store's consoles is that we can extend their storage for a gaming experience.

Do you wish to have the customized computer of your dreams?
